## Projector features

This projector is used to project various computer signals as well as NTSC/PAL/SECAM, Component (SD, HD) video signals onto a screen. It requires just a little space for installation and gets a large image from short distance.

- High Brightness  
Newly developed 180W UHB (Ultra High Brightness) lamp gives you a higher brightness image on a screen. The image can be still kept as bright and clean enough for use in bright rooms.
- Low Noise  
WHISPER mode is available for reducing acoustic noise to realize quieter operation. It is perfect for use in low luminance rooms where low noise is more important than brightness.
- Rich Connectivity  
This projector has a variety of I/O ports. It can be easily connected to many signal sources like PC, DVD and so on. The rich connectivity provides you more options to make your presentation impressive.
- Compact Body  
Even with its many features, this projector is extremely compact and slim, which gives you more flexibility and usability to use it where you want.

## Preparations

### About contents of package

Please see the "Contents of package" of the "User's Manual - Quick Guide". Your projector should come with the items shown there. Contact immediately your dealer if anything is missing.

**NOTE** • Keep the original packing materials for future reshipment. For moving the projector, be sure to use the original packing materials. Use special caution for the lens part.

### Fastening the lens cover

To avoid losing the lens cover, please fasten it the lens cap to the projector using the strap.

1. Fix the strap to the strap ring of the lens cover.
2. Put the strap into the groove on the rivet.
3. Push the rivet into the strap hole.

## Part names

### Projector

**⚠ WARNING** ► During use or immediately after use, do not touch around the lamp and vents of the projector. (★) It could cause a burn.

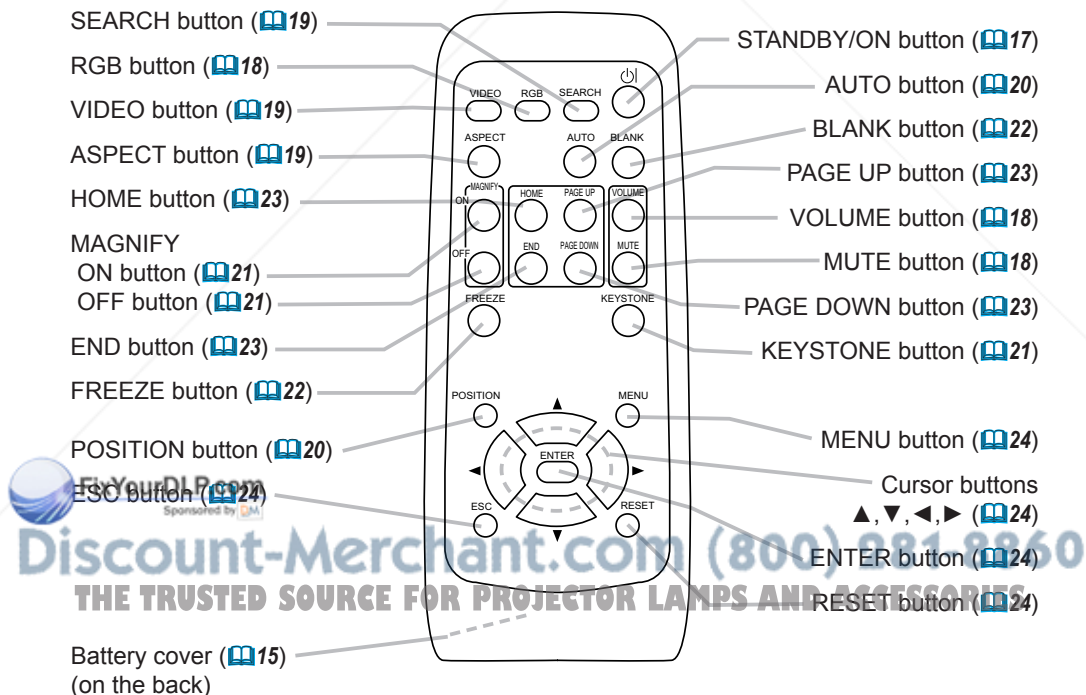

**NOTE (\*) About Restart switch:** This projector is controlled by an internal microprocessor. Under certain exceptional circumstances, the projector may not operate correctly and the microprocessor will need to be reset. In such a case, please push the Restart switch by using a cocktail stick or similar, and before turning on again, make the projector cool down at least 10 minutes without operating. Only push the Restart switch in these exceptional instances.

## Control buttons

## Remote control

## Setting up

**⚠️WARNING** ► Place the projector in a stable position horizontally. A fall or a turnover could cause an injury and/or damage to the projector. Then using damaged projector could result in a fire and/or an electric shock.

- Do not place the projector on an unstable, slant or vibrant surface such as a wobbly or inclined stand.
- Do not place the projector in the side/front/rear-up position, except cleaning the air filter.

► Place the projector in a cool place, and pay attention enough to ventilation. The high temperature of the projector could cause a fire, a burn and/or malfunction to the projector.

- Do not stop up, block and cover the projector's vents.
- Keep a space of 30 cm or more between the sides and other objects such as walls.
- Do not place the projector on a metallic thing or anything weak in heat.
- Do not place the projector on a carpet, cushion or bedding.
- Do not place the projector in direct sunlight or near a hot object such as a heater.
- Put nothing about lens and vents of the projector. Put nothing on the projector.
- Put nothing that is sucked or sticks to the bottom of projector. This projector has some intake vents also on the bottom.

► Do not place the projector on the place that gets wet. Damping the projector or inserting liquid in the projector could cause a fire, an electric shock and/or malfunction to the projector.

- Do not place the projector in a bathroom or the outdoors.
- Put nothing containing the liquid near the projector.

**⚠️CAUTION** ► Avoid a smoky, humid or dusty place. Placing the projector in such place could cause a fire, an electric shock and/or malfunction to the projector.

- Do not place the projector near a humidifier, a smoking space or a kitchen.
- Adjust the direction of the projector to keep the light from directly hitting the projector's remote sensor.

**THE TRUSTED SOURCE FOR PROJECTOR LAMPS AND ACCESSORIES**

## Arrangement

Refer to the illustrations and tables below to determine the screen size and projector distance.

The values shown in the table are calculated for a full size screen: CP-S245 : 800×600, CP-X255 : 1024×768

- (a) The screen size (diagonal)
- (b) Distance from the projector to the screen ( $\pm 10\%$ )
- (c) The height of the screen ( $\pm 10\%$ )

### For the model CP-S245

(a) Screen size [inch (m)]	4 : 3 screen				16 : 9 screen			
	(b) Projection distance [m (inch)]		(c) Screen height [cm (inch)]		(b) Projection distance [m (inch)]		(c) Screen height [cm (inch)]	
	min.	max.	down	up	min.	max.	down	up
30 (0.8)	0.9 (36)	1.1 (43)	5 (2)	41 (16)	1.0 (39)	1.2 (47)	-1 (0)	39 (15)
40 (1.0)	1.2 (48)	1.5 (57)	6 (2)	55 (22)	1.3 (52)	1.6 (63)	-2 (-1)	51 (20)
50 (1.3)	1.5 (60)	1.8 (72)	8 (3)	69 (27)	1.7 (65)	2.0 (79)	-2 (-1)	64 (25)
60 (1.5)	1.8 (72)	2.2 (87)	9 (4)	82 (32)	2.0 (79)	2.4 (94)	-2 (-1)	77 (30)

## Adjusting the projector's elevator

**⚠ CAUTION** ► If you press the elevator button without holding the projector, the projector might crash down, overturn, smash your fingers and possibly result in malfunction. To prevent damaging the projector and injuring yourself, always hold the projector whenever using the elevator buttons to adjust the elevator feet.

► Do not incline the projector rightward or leftward. Also do not incline it backward or forward exceeding 9 degrees. Exceeding these range could cause malfunction, and could shorten the lifetime of the consumables.

► Except for inclining by the elevator feet adjustment, place the projector horizontally.

You can use the elevator feet to make adjustments if the surface on which you need to set the projector is uneven or if you otherwise need to adjust the angle of projection. The adjustment range of the elevator feet is 0 to 9 degrees.

1. After making sure that the projector is cool adequately, press and hold in the elevator buttons while holding the projector.  
The elevator buttons and the elevator feet are on the both sides.
2. Raise or lower the projector to the desired height and release the elevator buttons.  
When you release the elevator buttons, the elevator feet will lock into position.
3. If necessary, you can also finely adjust the height of the projector by twisting the elevator feet by hand.

## Using the Security Bar

**⚠ WARNING** ► Do not use the security bar to prevent the projector from falling. Dropping or knocking over the projector may cause damage or injury.

**⚠ CAUTION** ► The security bar is not a comprehensive theft prevention measure. It is intended to be used as an extra theft prevention measure.

A commercial anti-theft chain or wire can be attached to the security bar on the projector.

### 1. How to attach

An anti-theft chain or wire can be attached as shown in the illustration. (Anti-theft chains or wires of up to 10mm in diameter can be used)

## Connecting your devices

**⚠CAUTION** ▶ Turn off all devices prior to connecting them to the projector. Attempting to connect a live device to the projector may generate extremely loud noises or other abnormalities that may result in malfunction and/or damage to the device and/or projector.

▶ Use the accessory cable or a designated-type cable for the connection. Some cables have to be used with core set. A too long cable may cause a certain picture degradation. Please consult with your dealer for details. For cables that have a core only at one end, connect the core to the projector.

▶ Make sure that you connect devices to the correct port. Incorrect connection may result in malfunction and/or damage to the device and/or projector.

**NOTE** • Whenever attempting to connect a laptop computer to the projector, be sure to activate the laptop's RGB external image output (set the laptop to CRT display or to simultaneous LCD and CRT display). For details on how this is done, please refer to the instruction manual of the corresponding laptop computer.

- Secure the screws on the connectors and tighten.
- Some computers may have multiple display screen modes. Use of some of these modes will not be possible with this projector.
- For some RGB signal modes, the optional Mac adapter is necessary.
- When the image resolution is changed on a computer, depending on an input, automatic adjustment function may take some time and may not be completed. In this case, you may not be able to see a check box to select "Yes/No" for the new resolution on Windows. Then the resolution will go back to the original. It might be recommended to use other CRT or LCD monitors to change the resolution.

### About Plug-and-Play capability

Plug-and-Play is a system composed of the computer, its operating system and peripheral equipment (i.e. display devices). This projector is compatible with VESA DDC 2B. Plug-and-Play can be achieved by connecting this projector to a computer is VESA DDC (display data channel) compatible.

- Please take advantage of this function by connecting the accessory RGB cable to the RGB IN1 port (DDC 2B compatible). Plug-and-Play may not work properly if any other type of connection is attempted.

- Please use the standard drivers in your computer as this projector is a Plug-and-Play monitor.

## Setting up

### Examples of connection with a computer

\* In the default setting, the AUDIO IN1 port is the audio port for the RGB IN1 and RGB IN2 ports. To change the settings, refer to the AUDIO item in the SETUP menu. (p.34)

FixYourDLP.com  
Sponsored by

Discount-Merchant.com (800) 281-8860

**CAUTION** ► For safety, do not connect LAN port to any network that might have the excessive voltage.

## Connecting to a monitor (output)

Use the RGB IN OUT switch to select RGB OUT (RGB OUT is selected if the switch is pushed in).

## Connecting to a speaker with amplifier (output)

## Examples of connection with a VCR/DVD player

\* In the default setting, the AUDIO IN2 L/R port is the audio port for the VIDEO, S-VIDEO and COMPONENT VIDEO ports. To change the settings, refer to the AUDIO item in the SETUP menu. (34)

## Connecting power supply

**⚠ WARNING** ► Please use extra caution when connecting the power cord, as incorrect or faulty connections may result in fire and/or electrical shock.

- Only use the power cord that came with the projector. If it is damaged, contact your dealer to newly get correct one.
- Only plug the power cord into an outlet rated for use with the power cord's specified voltage range.
- Never modify the power cord. Never attempt to defeat the ground connection of the three-pronged plug.

1. Connect the connector of the power cord to the AC inlet of the projector.
2. Firmly plug the power cord's plug into the outlet.

## Remote control

**Putting batteries**

**⚠ WARNING** ► Always handle the batteries with care and use them only as directed. Battery may explode if mistreated. Do not recharge, disassemble or dispose of in fire.

And also improper use may result in cracking or leakage, which could result in fire, injury and/or pollution of the surrounding environment.

- Be sure to use only the batteries specified. Do not use batteries of different types at the same time. Do not mix a new battery with used one.
- Make sure the plus and minus terminals are correctly aligned when loading a battery.
- Keep a battery away from children and pets. If swallowed consult a physician immediately for emergency treatment.
- Do not short circuit or solder a battery.
- Do not allow a battery in a fire or water. Keep batteries in a dark, cool and dry place.
- If you observe a leakage of a battery, wipe out the flower and then replace a battery. If the liquid adheres to your body or clothes, rinse well with water immediately.
- Obey the local laws on disposing the battery.

1. Remove the battery cover.  
Slide back and remove the battery cover in the direction of the arrow.
2. Insert the batteries.  
Align and insert the two AA batteries according to their plus and minus terminals as indicated in the remote control.
3. Close the battery cover.  
Replace the battery cover in the direction of the arrow and snap it back into place.

## Using the remote control

**⚠CAUTION** ► Be careful in handling the remote control.

- Do not drop or expose the remote control to physical impact.
- Do not get the remote control wet or place it on wet objects. It may result in malfunction.
- Remove the batteries from the remote control and store them in a safe place if you won't be using the remote control for an extended period.
- Replace the batteries whenever the remote control starts malfunctioning.
- When strong lights (such as direct sunlight) or light from an extremely close range (such as from an inverter fluorescent lamp), hit the projector's remote sensor, the remote control may cause to function. Adjust the direction of the projector to keep the light from directly hitting the projector's remote sensor.

The remote control works with the projector's remote sensor.

- The range of the remote sensor is 3 meters with a 60 degree range (30 degrees to the left and right of the remote sensor).
- Also a remote signal reflected in the screen etc. may be available. If it is difficult to send a remote signal to the sensor directly, please try to use the reflected signal.
- Since the remote control uses infrared light to send signals to the projector (Class1 LED), be sure to use the remote control in an area free from obstacles that could block the remote control's output signal to the projector.

## Power on/off

**⚠ WARNING** ► When the power is on, a strong light is emitted. Do not look into the lens of projector. Also do not peep at the inside of projector through a hole.

**NOTE** • Turn the power on/off in right order. Please power on the projector prior to the connected devices. Power off the projector later than the connected devices.

## Turning on the power

1. Make sure that the power cord is firmly and correctly connected to the projector and the outlet.
2. Remove the lens cover, and set the power switch to the ON position.  
The power indicator will light up in steady orange. Then wait several seconds because the buttons may not function for these several seconds.

3. Press the STANDBY/ON button on the projector or the remote control.

The projector lamp will light up and the POWER indicator will begin blinking in green. When the power is completely on, the indicator will stop blinking and light in green.

To display the picture, select an input signal according to the section "Selecting an input signal" (18).

## Turning off the power

This product is able to turn off the main power during the cooling. However, please pay special attention to below two points when you do:

- (1) Please do not turn the projector on again for at least 1 minute in this case. Neglect could shorten the lifetime of the lamp.
- (2) During use or immediately after use, do not touch around the lamp and vents of the projector (4 ★). It could cause a burn.

1. Press the STANDBY/ON button on the projector or the remote control.  
The message "Power off?" will appear on the screen for approximately 5 seconds.

2. Press the STANDBY/ON button on the projector or the remote control again while the message appears.  
The projector lamp will go off, and the POWER indicator will begin blinking in orange.

Then the POWER indicator will stop blinking and light in steady orange when the lamp cooling is complete.

3. Make sure that the power indicator lights in steady orange, and set the power switch to the OFF position. The POWER indicator will go off. Attach the lens cover.

## Operating

**Adjusting the volume**

1. Press the VOLUME button on the remote control.  
A dialog will appear on the screen to aid you in adjusting the volume.
2. Use the cursor buttons ▲/▼ to adjust the volume.  
To close the dialog and complete the operation, press the VOLUME button again. Even if you don't do anything, the dialog will automatically disappear after a few seconds.

**Temporarily muting the sound**

1. Press the MUTE button on the remote control.  
A dialog will appear on the screen indicating that you have muted the sound.  
To restore the sound, press the MUTE or VOLUME button.  
Even if you don't do anything, the dialog will automatically disappear after a few seconds.

**Selecting an input signal**

1. Press the INPUT button on the projector.  
Each time you press the button, the projector switches its input port as below.

- When the RGB IN2/RGB OUT port functions as an RGB out port (the RGB IN OUT switch is pushed in), RGB IN2 cannot be selected. In that case "RGB2/RGB OUT ⇌ RGB OUT" message will be displayed.

1. Press the RGB button on the remote control to select an input port for the RGB signal.  
Each time you press the button, the projector switches its RGB input port as below.

RGB IN1 ↔ RGB IN2

- If the RGB button is pushed (when switching from VIDEO to RGB signals) when TURN ON is selected for the AUTO SEARCH item in the OPTION menu the projector will check the RGB IN1 port first. If no input is detected at the port, the projector will check the RGB IN2 port.
- When the RGB IN2/RGB OUT port functions as an RGB out port (the RGB IN OUT switch is pushed in), RGB IN2 cannot be selected. In that case "RGB2/RGB OUT ⇌ RGB OUT" message will be displayed.

### Selecting an input signal (continued)

1. Press the VIDEO button on the remote control to select an input for video signal.

Each time you press the button, the projector switches its video input port as below.

COMPONENT VIDEO → S-VIDEO → VIDEO

- If the VIDEO button is pushed (when switching from RGB to VIDEO signals) when TURN ON is selected for the AUTO SEARCH item in the OPTION menu the projector will check the COMPONENT VIDEO port first. If no input is detected at the port, projector will begin to check other ports in above order.

### Searching an input signal

1. Press the SEARCH button on the remote control.  
The projector will start to check its input ports in order to find any input signals.

Then when an input is found, the projector will stop searching and display the image. If no signal is found, the projector will return to the state selected before the operation.

RGB IN 1 → RGB IN 2 → COMPONENT VIDEO → S-VIDEO → VIDEO

### Selecting an aspect ratio

1. Press the ASPECT button on the remote control.  
Each time you press the button, the projector switches the mode for aspect ratio in turn.

#### ○ For an RGB signal

NORMAL → 4:3 → 16:9

#### ○ For a video signal/no signal

4:3 → 16:9 → SMALL

- The NORMAL mode keeps the original aspect ratio of the signal.
- For an HDTV signal of 1125i (1080i) or 750p (720p) as the COMPONENT VIDEO input, only 16:9 mode can be selected.
- Performing the automatic adjustment initializes the aspect ratio setting.

### Adjusting the zoom and focus

1. Use the zoom ring to adjust the screen size.

2. Use the focus ring to focus the picture.

## Using the automatic adjustment feature

1. Press the AUTO button on the remote control.

### ○ For an RGB signal

The vertical position, the horizontal position, the clock phase and the horizontal size will be automatically adjusted.

And the aspect ratio will be automatically selected. Make sure that the application window is set to its maximum size prior to attempting to use this feature. A dark picture may still be incorrectly adjusted. Use a bright picture when adjusting.

### ○ For a video signal or s-video signal

The video format best suited for the respective input signal will be selected automatically.

This function is available only when the AUTO mode is selected to the VIDEO FORMAT item in the INPUT menu (32). For a component video signal, the signal type is identified automatically independently of this function.

### ○ For a video signal, s-video signal or component video signal

The vertical position and horizontal position will be automatically adjusted.

### ○ For a component video signal

The aspect ratio will be automatically selected.

The clock phase will be automatically adjusted.

- The automatic adjustment operation requires approximately 10 seconds. Also please note that it may not function correctly with some input.

## Adjusting the position

1. Press the POSITION button on the remote control.  
The "POSITION" indication will appear on the screen.
2. Use the cursor buttons ▲/▼/◀/▶ to adjust the picture position.

When you want to reset the operation, press the RESET button on the remote control during the operation.

To complete this operation, press the POSITION button again. Even if you don't do anything, the dialog will automatically disappear after a few seconds.

- When this function is performed at a video signal, a certain extra such as a line may appear outside a picture.

## Correcting the keystone distortions

1. Press the KEYSTONE button on the remote control. A dialog will appear on the screen to aid you in correcting the distortion.
2. Use the cursor buttons ▲/▼ to correct the distortion. To close the dialog and complete this operation, press the KEYSTONE button again. Even if you don't do anything, the dialog will automatically disappear after a few seconds.
  - The adjustable range for correction will vary among inputs. For some input, this function may not work well.
  - When V:INVERT or H&V:INVERT is selected to the MIRROR item in the SETUP menu, if the projector screen is inclined or angled downward, this function may not work correctly.
  - When the zoom adjustment is set to the TELE (telephoto focus), this correction may be excessive. This function should be used when the zoom adjustment is set to the WIDE (wide-angle focus) whenever possible.

## Using the magnify feature

1. Press the ON button of MAGNIFY on the remote control. The "MAGNIFY" indication will appear on the screen (although the indication will disappear in several seconds with no operation), and the projector will enter the MAGNIFY mode.
2. Use the cursor buttons ▲/▼ to adjust the zoom level. To move the zoom area, press the POSITION button in the MAGNIFY mode, then use the cursor buttons ▲/▼/◀/▶ to move the area. And to finalize the zoom area, press the POSITION button again. To exit the MAGNIFY mode and restore the screen to normal, press the OFF button of MAGNIFY on the remote control.
  - The projector automatically exits the MAGNIFY mode when the input signal is changed, or when the display condition is changed.
  - Although in the MAGNIFY mode, the keystone distortion condition may vary, it will be restored when the projector exits the MAGNIFY mode.

## Freezing the screen

- 1 Press the FREEZE button on the remote control.
  - The "FREEZE" indication will appear on the screen, and the projector will enter the FREEZE mode.

To exit the FREEZE mode and restore the screen to normal, press the FREEZE button again.

- The projector automatically exits the FREEZE mode when the input signal changes, or when one of the projector's buttons or the remote control buttons of STANDBY/ON, SEARCH, RGB, VIDEO, BLANK, AUTO, ASPECT, VOLUME, MUTE, KEYSTONE, POSITION and MENU is pressed.
- If the projector continues projecting a still image for long time, the LCD panel might possibly be printed. Do not leave the projector in the FREEZE mode for too long.

## Temporarily blanking the screen

- 1 Press the BLANK button on the remote control.
  - The blank screen will be displayed instead of the screen of input signal. Please refer to the BLANK item in the SCREEN menu (35).

To exit the blank screen and return to the input signal screen, press the BLANK button again.

- The projector automatically returns to the input signal screen when the input signal is changed, or when one of the projector's buttons or the remote control buttons is pressed.

## Operating the computer screen

**⚠ CAUTION** ▶ Mistaken use of the mouse/keyboard control could damage your equipment.

- While using this function, please connect only with a computer.
- Before connecting, read the manuals of the computer you will connect.

**NOTE** • It may not be possible to control notebook PC, and other computers with built-in pointing device (e.g. track ball), using this remote control. In this case, before connecting go into BIOS (system setup) and select external mouse, and disable the pointing device. In addition, the mouse may not function if the computer does not have the needed utility program. See your computer's hardware manual for details.

- The USB control can be used with Windows 95 OSR 2.1 or higher. It may not be possible to use the remote control, depending on the computer's configurations and mouse drivers.
- The USB control can be used only for the functions listed below. You cannot do things like press two buttons at once (for instance, pressing two buttons at the same time to move the mouse pointer diagonally).
- This function is not available while the lamp is warming up (the POWER indicator flashes green), and while adjusting the volume and display, correcting for trapezoidal distortion, zooming in on the screen, using the BLANK function, or displaying the menu screen.

### USB mouse and keyboard control

1. Connect the projector's USB port to the computer via the mouse cable.

Available function	Remote control operation
Move pointer	Use ▲, ▼, ◀, ▶ buttons
Left click with mouse	Press ENTER button
Right click with mouse	Press RESET button
Press keyboard's HOME key	Press HOME button
Press keyboard's END key	Press END button
Press keyboard's PAGE UP key	Press PAGE UP button
Press keyboard's PAGE DOWN key	Press PAGE DOWN button
Press keyboard's ESC key	Press ESC button

## Multifunctional settings

### Using the menu function

This projector has the following menus: PICTURE, IMAGE, INPUT, SETUP, SCREEN, OPTION, NETWORK and EASY MENU. EASY MENU consists of functions often used, and the other menus are classified into each purpose. Each of these menus is operated using the same methods. The basic operations of these menus are as follows.

1. Press the MENU button on the remote control or one of the cursor buttons on the projector.

The Advanced MENU or EASY MENU will appear.

#### In the EASY MENU

2. If you want to change it to the Advanced MENU, select the "Go to Advanced Menu"
3. Use the cursor buttons ▲/▼ to select an item to operate.
4. Use the cursor buttons ◀/▶ to operate the item.

#### In the Advanced MENU

2. Use the cursor buttons ▲/▼ to select a menu.
- If you want to change it to the EASY MENU, select the EASY MENU.
- Then press the cursor button ▶ on the projector or remote control, or the ENTER button on the remote control to select an item. The display of the selected menu will be active.
- Use the cursor buttons ▲/▼ to select an item to operate.
- Then press the cursor button ▶ on the projector or remote control, or the ENTER button on the remote control to progress. The operation menu of the selected item will appear.
- Use the cursor buttons ▲/▼ to operate the item.

- When you want to reset the operation, press the RESET button on the remote control during the operation. Note that items whose functions are performed simultaneously with operation (ex. LANGUAGE, H PHASE, VOLUME etc.) cannot be reset.
  - In the advanced menu, when you want to return to the previous display, press the cursor button ◀ on the projector or remote control, or the ESC button on the remote control.
5. Press the MENU button on the remote control again to close the menu and complete this operation. Even if you don't do anything, the dialog will automatically disappear after about 10 seconds.
- Some functions cannot be performed when a certain input port is selected, or when a certain input signal is displayed.

## EASY Menu

With the EASY MENU, items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control. Then perform it referring to the following table.

Item	Description
<b>ASPECT</b>	Using the buttons ◀/▶ switches the mode for aspect ratio. See the ASPECT item in the IMAGE menu (📖30).
<b>KEYSTONE</b>	Using the buttons ◀/▶ corrects the keystone distortion. See the item KEYSTONE of section SETUP menu. (📖21)
<b>MODE</b>	<p>Using the buttons ◀/▶ switches the mode of picture type. The modes of picture type are combinations of a mode of GAMMA and a mode of COLOR TEMP. Choose a suitable mode according to the projected source.</p> <p>NORMAL ⇄ CINEMA ⇄ DYNAMIC  </p> <p>NORMAL: (COLOR TEMP = MIDDLE) + (GAMMA = #1 DEFAULT)  CINEMA: (COLOR TEMP = LOW) + (GAMMA = #2 DEFAULT)  DYNAMIC: (COLOR TEMP = HIGH) + (GAMMA = #3 DEFAULT)</p> <ul style="list-style-type: none"> <li>When the combination of GAMMA and COLOR TEMP differs from pre-assigned modes above, the display on the menu for the MODE is "CUSTOM". Please refer to the GAMMA (📖27) and COLOR TEMP (📖28) items in the PICTURE menu.</li> <li>When this function is performed, a certain extra such as a line may appear.</li> </ul>
<b>BRIGHTNESS</b>	Using the buttons ◀/▶ adjusts the brightness. See the item BRIGHTNESS in the PICTURE menu (📖27).
<b>CONTRAST</b>	Using the buttons ◀/▶ adjusts the contrast. See the item CONTRAST of section PICTURE menu (📖27).
<b>COLOR</b>	Using the buttons ◀/▶ adjusts the strength of whole color. See the COLOR item in the PICTURE menu (📖28).
<b>TINT</b>	Using the buttons ◀/▶ adjusts the tint. See the TINT item in the PICTURE menu (📖28).
<b>SHARPNESS</b>	<p>Using the buttons ◀/▶ adjusts the sharpness. See the SHARPNESS item in the PICTURE menu (📖28).</p> <ul style="list-style-type: none"> <li>There may be some noise when an adjustment is made. This is not a malfunction.</li> </ul>
<b>WHISPER</b>	Using the buttons ◀/▶ turns off/on the whisper mode. See the WHISPER item in the SETUP menu (📖34).

**EASY Menu (continued)**

Item	Description
<b>MIRROR</b>	Using the buttons ◀/▶ switches the mode for mirror status. See the MIRROR item in the SETUP menu (📖34).
<b>RESET</b>	Performing this item resets all of the items of EASY MENU except FILTER TIME and LANGUAGE. A dialog is displayed for confirmation. Selecting RESET using the button ▲ performs resetting.
<b>FILTER TIME</b>	Performing this item resets the filter timer which counts usage time of the air filter. A dialog is displayed for confirmation. Selecting RESET using the button ▲ performs resetting. See the FILTER TIME item in the OPTION menu (📖38).
<b>LANGUAGE</b>	Select the LANGUAGE item to toggle the menu language. Refer to description of LANGUAGE in the SCREEN menu (📖35).
<b>Go To Advanced Menu</b>	Select "Go To Advanced Menu" to use the menu of PICTURE, IMAGE, INPUT, SETUP, SCREEN or OPTION.

## PICTURE Menu

With the PICTURE menu, the items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item. Then perform it referring to the following table.

MENU [RGB]		SELECT
PICTURE	BRIGHTNESS	+0
IMAGE	CONTRAST	+0
INPUT	GAMMA	DEFAULT 1
SETUP	COLOR TEMP	MIDDLE
SCREEN	COLOR	+0
OPTION	TINT	+0
NETWORK	SHARPNESS	3
EASY MENU	PROGRESSIVE	TURN OFF
	MY MEMORY	SAVE 1

Item	Description
<b>BRIGHTNESS</b>	Using the buttons ▲/▼ adjusts the brightness. : Light ⇄ Dark
<b>CONTRAST</b>	Using the buttons ▲/▼ adjusts the contrast. : Strong ⇄ Weak
<b>GAMMA</b>	<p>Using the buttons ▲/▼ switches the GAMMA mode.</p> <p>#1 DEFAULT ⇄ #1 CUSTOM ⇄ #2 DEFAULT</p> <p>⇕</p> <p>#3 CUSTOM ⇄ #3 DEFAULT ⇄ #2 CUSTOM</p> <p><b>To adjust #1 CUSTOM, #2 CUSTOM or #3 CUSTOM</b></p> <p>Selecting a mode of CUSTOM and then pressing the button ► or the ENTER button displays a dialog to aid you in adjusting the mode.</p> <p>This function is useful when you want to change the brightness of particular tones.</p> <p>Choose an item using the buttons ◀/▶, and adjust the level using the buttons ▲/▼.</p> <p>You can display a test pattern for checking the effect of your adjustment by pressing the ENTER button.</p> <p>Each time you press the ENTER button, the pattern changes as below.</p> <p>No pattern ⇄ Gray scale of 9 steps ⇄ Ramp ⇄ Gray scale of 15 steps</p> <p>The eight equalizing bars correspond to eight tone levels of the test pattern except the darkest in the left end. If you want to adjust the 2nd tone from left end on the test pattern, use the equalizing adjustment bar "1". The darkest tone at the left end of the test pattern cannot be controlled with any of equalizing adjustment bar.</p> <p>When this function is performed, a certain extra such as a line may appear.</p>

**PICTURE Menu (continued)**

Item	Description
<b>COLOR TEMP</b>	<p>Using the buttons ▲/▼ switches the mode of color temperature. HIGH ⇄ MIDDLE ⇄ LOW ⇄ CUSTOM</p> <p style="text-align: center;">↑—————↑</p> <p><b>To adjust CUSTOM</b></p> <p>Selecting the CUSTOM and then pressing the button ► or the ENTER button displays a dialog to aid you in adjusting the OFFSET and/or GAIN of the CUSTOM mode.</p> <p>OFFSET adjustments change the color intensity on the whole tones of the test pattern.</p> <p>GAIN adjustments mainly affect color intensity on the brighter tones of the test pattern.</p> <p>Choose an item using the buttons ◀/▶, and adjust the level using the buttons ▲/▼.</p> <p>You can display a test pattern for checking the effect of your adjustment by pressing the ENTER button.</p> <p>Each time you press the ENTER button, the pattern changes as below.</p> <p>No pattern ⇄ Gray scale of 9 steps ⇄ Ramp ⇄ Gray scale of 15 steps</p> <p>• When this function is performed, a certain extra such as a line may appear.</p> 
<b>COLOR</b>	<p>Using the buttons ▲/▼ adjusts the strength of whole color. Strong ⇄ Weak</p> <p>• This item can be selected only for a video signal.</p>
<b>TINT</b>	<p>Using the buttons ▲/▼ adjusts the tint. Green ⇄ Red</p> <p>• This item can be selected only for a video signal except for SECAM.</p>
<b>SHARPNESS</b>	<p>Using the buttons ▲/▼ adjusts the sharpness. Strong ⇄ Weak</p> <p>• There may be some noise and/or the screen may flicker for a moment when an adjustment is made. This is not a malfunction.</p>

**PICTURE Menu (continued)**

Item	Description
<b>PROGRESSIVE</b>	<p>Using the buttons ▲/▼ switches the progress mode. TV ⇄ FILM ⇄ TURN OFF</p> <ul style="list-style-type: none"> <li>• This function is performed only for an interlaced signal of a VIDEO input, an S-VIDEO input or COMPONENT VIDEO input of 525i (480i) or 625i (576i) signal.</li> <li>• When TV or FILM is selected, the screen image will be sharp. FILM adapts to the 2-3 Pull-Down conversion system. But these may cause a certain defect (for example, jagged line) of the picture for a quick moving object. In such a case, please select TURN OFF, even though the screen image may lose the sharpness.</li> </ul>
<b>MY MEMORY</b>	<p>Selecting a mode of MY MEMORY using the buttons ▲/▼ and then pressing the button ► or the ENTER button performs each function.</p> <p style="text-align: center;">       ↪ LOAD1 ⇄ LOAD2 ⇄ LOAD3 ⇄ LOAD4 ↩        ↪ SAVE4 ⇄ SAVE3 ⇄ SAVE2 ⇄ SAVE1 ↩     </p> <p>This projector has 4 numbered memories for adjustment data. Performing the LOAD1, LOAD2, LOAD3 or LOAD4 loads the data on the memory whose number corresponds to the command's number, and adjusts the picture automatically depending on the data. Performing the SAVE1, SAVE2, SAVE3 or SAVE4 saves the current adjustment data on the memory whose number corresponds to the command's number.</p> <ul style="list-style-type: none"> <li>• The current adjustment data of the items in the PICTURE menu is stored, except for the adjustment data in the CUSTOM modes for the GAMMA and COLOR TEMP items.</li> <li>• There may be some noise and/or the screen may flicker for a moment when data is loaded to memory. This is not a malfunction.</li> </ul>

## IMAGE Menu

With the IMAGE menu, items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item. Then perform it referring to the following table.

MENU [RGB]		SELECT
PICTURE	ASPECT	4:3
<b>IMAGE</b>	OVER SCAN	5
INPUT	V POSITION	25
SETUP	H POSITION	142
SCREEN	H PHASE	16
OPTION	H SIZE	1344
NETWORK	AUTO ADJUST	EXECUTE
EASY MENU		

Item	Description
<b>ASPECT</b>	<p>Using the buttons ▲/▼ switches the mode for aspect ratio.</p> <p><b>For an RGB signal</b>  4:3 ⇄ 16:9 ⇄ NORMAL  ↑</p> <p><b>For a video signal / no signal</b>  4:3 ⇄ 16:9 ⇄ SMALL  ↑</p> <ul style="list-style-type: none"> <li>The NORMAL mode keeps the original aspect ratio of the signal.</li> <li>For an HDTV signal of 1125i (1080i) or 750p (720p) as the COMPONENT VIDEO input, this item can't be selected.</li> </ul>
<b>OVER SCAN</b>	<p>Using the buttons ▲/▼ adjusts the over-scan ratio.</p> <p>Large (It reduces picture) ⇄ Small (It magnifies picture)</p> <ul style="list-style-type: none"> <li>This item can be selected only for a video signal.</li> <li>When this adjustment is too large, certain degradation may appear at the frame area of the picture. In such a case, please adjust small.</li> </ul>
<b>V POSITION</b>	<p>Using the buttons ▲/▼ adjusts the vertical position.</p> <p>Up ⇄ Down</p> <ul style="list-style-type: none"> <li>Over-adjusting the vertical position may cause noise to appear on the screen. If this occurs please reset the vertical position to the default setting. Pressing the RESET button when V POSITION is selected will reset the V POSITION to the default setting.</li> </ul>
<b>H POSITION</b>	<p>Using the buttons ▲/▼ adjusts the horizontal position.</p> <p>Left ⇄ Right</p> <ul style="list-style-type: none"> <li>Over-adjusting the horizontal position may cause noise to appear on the screen. If this occurs please reset the horizontal position to the default setting. Pressing the RESET button when H POSITION is selected will reset the H POSITION to the default setting.</li> </ul>
<b>H PHASE</b>	<p>Using the buttons ▲/▼ adjusts the horizontal phase to eliminate flicker.</p> <p>Right ⇄ Left</p> <ul style="list-style-type: none"> <li>This item can be selected only for an RGB signal or a component video signal. Note that this does not work with the input signal of 525i(480i)/625i(576i)/SCART RGB from the component video port.</li> </ul>

**IMAGE Menu (continued)**

Item	Description
<b>H SIZE</b>	<p>Using the buttons ▲/▼ adjusts the horizontal size.            Large ⇄ Small</p> <ul style="list-style-type: none"> <li>• This item can be selected only for an RGB signal.</li> <li>• When this adjustment is excessive, the picture may not be displayed correctly. In such a case, please reset the adjustment by pressing the RESET button on the remote control during this operation.</li> </ul>
<b>AUTO ADJUST EXECUTE</b>	<p>Selecting this item performs the automatic adjustment feature.</p> <p><b>For an RGB signal</b>            The vertical position, the horizontal position, the clock phase and the horizontal size will be automatically adjusted. And the aspect ratio will be automatically selected.            Make sure that the application window is set to its maximum size prior to attempting to use this feature. A dark picture may still be incorrectly adjusted. Use a bright picture when adjusting.</p> <p><b>For a video signal or s-video signal</b>            The video format best suited for the respective input signal will be selected automatically.            This function is available only when the AUTO mode is selected to the VIDEO FORMAT item in the INPUT menu. For a component video signal, the signal type is identified automatically independently of this function.</p> <p><b>For a video signal, s-video signal or component video signal</b>            The vertical position and horizontal position will be automatically adjusted.</p> <p><b>For a component video signal</b>            The aspect ratio will be automatically selected.            The clock phase will be automatically adjusted.</p> <ul style="list-style-type: none"> <li>• The automatic adjustment operation requires approximately 10 seconds. Also please note that it may not function correctly with some input.</li> </ul>

## INPUT Menu

With the INPUT menu, the items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item. Then perform it referring to the following table.

Item	Description
<b>COLOR SPACE</b>	<p>Using the buttons ▲/▼ switches the mode for color space.            AUTO ⇄ RGB ⇄ SMPTE240 ⇄ REC709 ⇄ REC601            ↑↑↑↑↑↑↑↑</p> <ul style="list-style-type: none"> <li>This item can be selected only for an RGB signal or a component video signal (except signals of 525i(480i)/625i(576i)/SCART RGB from the component video port).</li> <li>The AUTO mode automatically selects the optimum mode.</li> <li>The AUTO operation may not work well at some signals. In such a case, it might be good to select a suitable mode except AUTO.</li> </ul>
<b>COMPONENT</b>	<p>Using the buttons ▲/▼ switches the function of COMPONENT VIDEO port.            COMPONENT ⇄ SCART RGB</p> <p>When the SCART RGB is selected, the COMPONENT VIDEO port function as a port for a SCART RGB signal input. A SCART adapter and SCART cable realize a SCART RGB input to the projector. For details, contact your dealer.</p>
<b>VIDEO FORMAT</b>	<p>Using the buttons ▲/▼ switches the mode for video format.            AUTO ⇄ NTSC ⇄ PAL ⇄ SECAM            ⇄ N-PAL ⇄ M-PAL ⇄ NTSC4.43 ⇄</p> <ul style="list-style-type: none"> <li>This item is performed only for a video signal from the VIDEO port or the S-VIDEO port. For a component video signal, the signal type is identified automatically independently of this function.</li> <li>The AUTO mode automatically selects the optimum mode.</li> <li>The AUTO operation may not work well for some signals. If the picture becomes unstable (ex. an irregular picture, a color lack), please select the mode depending on the input signal.</li> </ul>
<b>FRAME LOCK</b>	<p>Using the buttons ▲/▼ turns the frame lock function on/off.            TURN ON ⇄ TURN OFF</p> <ul style="list-style-type: none"> <li>This item performs only at a RGB signal with vertical frequency of 50 to 72 Hz for the model CP-S245 or 50 to 60 Hz for the model CP-X255.</li> <li>When the TURN ON is selected, a moving picture is displayed more smoothly.</li> <li>This function may cause a certain degradation of the picture. In such a case, please select the TURN OFF.</li> </ul>

**INPUT Menu (continued)**

Item	Description
<b>INFORMATION</b>	<p>Selecting this item displays a dialog titled "INPUT INFORMATION". It shows the information about the current input.</p> <div style="display: flex; justify-content: space-around; align-items: flex-start;"> <div style="border: 1px solid black; padding: 5px; text-align: center; width: 30%;">             ◀ INPUT-INFORMATION RGB 1024x768 @60.0 FRAME LOCK           </div> <div style="border: 1px solid black; padding: 5px; text-align: center; width: 30%;">             ◀ INPUT-INFORMATION S-VIDEO SECAM AUTO           </div> <div style="border: 1px solid black; padding: 5px; text-align: center; width: 30%;">             ◀ INPUT-INFORMATION COMPONENT 576i @50 SCART RGB           </div> </div> <ul style="list-style-type: none"> <li>• The "FRAME LOCK" message on the dialog means the frame lock function is working.</li> <li>• The "SCART RGB" message means the COMPONENT VIDEO port is working as a SCART RGB input port. Please refer to the COMPONENT item in this menu. (p.32)</li> <li>• This item can't be selected for no signal and sync out.</li> </ul>

## SETUP Menu

With the SETUP menu, the items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item. Then perform it referring to the following table.

Item	Description
<b>KEYSTONE</b>	<p>Using the buttons ▲/▼ corrects the keystone distortion. Upper in the data ⇔ Lower in the data</p> <ul style="list-style-type: none"> <li>The adjustable range of this function will vary with the type of input signal. At some signals, this function may not work well.</li> <li>When the V:INVERT or the H&amp;V:INVERT is selected under the item MIRROR, if the projector screen is inclined or if the projector is angled downward, this function may not work correctly.</li> <li>When the zoom adjustment is set to the TELE side, this correction may be excessive. This function should be used with zoom set to WIDE whenever possible.</li> </ul>
<b>WHISPER</b>	<p>Using the buttons ▲/▼ turns off/on the whisper mode. NORMAL ⇔ WHISPER</p> <ul style="list-style-type: none"> <li>When the WHISPER is selected, acoustic noise and screen brightness are reduced.</li> </ul>
<b>MIRROR</b>	<p>Using the buttons ▲/▼ switches the mode for mirror status.</p> <p>NORMAL ⇔ H:INVERT ⇔ V:INVERT ⇔ H&amp;V:INVERT</p>
<b>VOLUME</b>	<p>Using the buttons ▲/▼ adjusts the volume. High ⇔ Low</p>
<b>AUDIO</b>	<p>Choose an input port using the buttons ▲/▼ (1), then select the audio port to be interlocked with the input port using the buttons ◀/▶ (2). When off is selected, both of two audio ports do not work for the input port.</p> <p>(1) RGB1 ⇔ RGB2 ⇔ COMPONENT ⇔ S-VIDEO ⇔ VIDEO (2) 1 ⇔ 2 ⇔ ✕</p>

## SCREEN Menu

With the SCREEN menu, the items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item. Then perform it referring to the following table.

Item	Description
<b>LANGUAGE</b>	<p>Using the buttons ▲/▼ switches the OSD (On Screen Display) language.</p> <p>ENGLISH ⇄ FRANÇAIS ⇄ DEUTSCH ⇄ ESPAÑOL ⇄ ITALIANO</p> <p>NORSK ⇄ NEDERLANDS ⇄ PORTUGUÊS ⇄ 日本語</p> <p>简体中文 ⇄ 繁體中文 ⇄ 한글 ⇄ SVENSKA ⇄ РУССКИЙ</p> <p>SUOMI ⇄ POLSKI ⇄ TÜRKÇE</p>
<b>MENU POSITION</b>	<p>Using the buttons ◀/▶/▲/▼ adjusts the menu position.</p> <p>To quit the operation, press the MENU button on the remote control or keep no operation for 10 seconds.</p>
<b>OSD BRIGHT.</b>	<p>Using the buttons ▲/▼ switches the brightness level of the OSD (On Screen Display).</p> <p>BRIGHT ⇄ DARK</p>
<b>BLANK</b>	<p>Using the buttons ▲/▼ switches the mode for the blank screen. The blank screen is a screen for the temporarily blanking feature (22). It is displayed by pressing the BLANK button on the remote control.</p> <p>MyScreen ⇄ ORIGINAL ⇄ BLUE ⇄ WHITE ⇄ BLACK</p> <p>MyScreen is a screen you can register as a desired screen. The ORIGINAL screen is the existing standard screen. BLUE, WHITE and BLACK are non-patterned (plain) screens in each color.</p> <ul style="list-style-type: none"> <li>To avoid remaining as an afterimage, the MyScreen and the ORIGINAL screens will change to the BLACK screen after several minutes.</li> <li>For the MyScreen, please refer to the MyScreen item (36).</li> </ul>

## OPTION Menu

With the OPTION menu, the items shown in the table below can be performed.

Select an item using the cursor buttons ▲/▼ on the projector or remote control, and press the cursor button ► on the projector or remote control, or the ENTER button on the remote control to execute the item, except for the items LAMP TIME and FILTER TIME. Then perform it referring to the following table.

Item	Description
<b>AUTO SEARCH</b>	<p>Using the buttons ▲/▼ turns on/off the automatic signal search function. TURN ON ⇔ TURN OFF</p> <p>This function works with INPUT, RGB, and VIDEO buttons. When the TURN ON is selected, detecting no signal automatically cycles through input ports in the following order. The search is started from the current port. Then when an input is found, the projector will stop searching and display the image. RGB IN1 ⇨ RGB IN2 ⇨ COMPONENT VIDEO ⇨ S-VIDEO ⇨ VIDEO</p> <p>• When the RGB IN2/RGB OUT port functions as an RGB out port (the RGB IN OUT switch is pushed in), RGB IN2 cannot be selected. In that case "RGB2/RGB OUT ⇨ RGB OUT" message will be displayed.</p>
<b>AUTO OFF</b>	<p>Using the buttons ▲/▼ adjusts the time to count down to automatically turn the projector off. Long (max. 99 minutes) ⇔ Short (min. 0 minute = DISABLE)</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="border: 1px solid black; padding: 5px; text-align: center;">             AUTO OFF ENABLE 1         </div> <div style="border: 1px solid black; padding: 5px; text-align: center;">             AUTO OFF DISABLE 0         </div> </div> <p>When the time is set to 0, the projector is not turned off automatically. When the time is set to 1 to 99, and when the passed time with no-signal or an unsuitable signal reaches at the set time, the projector lamp will go off and the power indicator begins blinking. Please refer to the section "Turning off the power" (17).</p>
<b>LAMP TIME</b>	<p>The lamp time is the time counted after the last resetting. It is shown in the OPTION menu as the usage time of the lamp. Pressing the RESET button on the remote control or the button ► of the projector displays a dialog. To reset the lamp time, select the RESET using the button ▲. RESET ⇔ CANCEL</p> <ul style="list-style-type: none"> <li>• Please reset the lamp time only when you have replaced the lamp, for a suitable indication about the lamp.</li> <li>• For the lamp replacement, see the section "Lamp" (43, 44).</li> </ul>
<b>FILTER TIME</b>	<p>The filter time is the time counted after the last resetting. It is shown in the OPTION menu as the usage time of the air filter. Pressing the RESET button on the remote control or the button ► of the projector displays a dialog. To reset the filter time, select the RESET using the button ▲. RESET ⇔ CANCEL</p> <ul style="list-style-type: none"> <li>• Please reset the filter time only when you have cleaned or replaced the air filter, for a suitable indication about the air filter.</li> <li>• For the air filter cleaning, see the section "Air filter" (45).</li> </ul>

**OPTION Menu (continued)**[illegible]

## NETWORK Menu

Select **[Network]** from the main menu to access the following functions.

**NOTE** • The factory default setting for DHCP is “TURN ON”. There is no need to set up [DHCP], [IP ADDRESS], [SUBNET MASK] or [DEFAULT GATEWAY] if your network has DHCP enabled. ( **User’s Manual - Network Functions** )

• If you are not utilizing SNTF ( **User’s Manual - Network Functions** ), then you must set the DATE AND TIME during the initial installation. Please refer to the item DATE AND TIME on the following list.

**NOTE** Consult with your network administrator before connecting to an existing access point on your network. Incorrect network settings on this projector may cause trouble on the network.

Item	Operation
<b>DHCP</b> (Dynamic Host Configuration Protocol)	<p>DHCP TURN ON/TURN OFF: Use the ▲/▼ buttons to turn DHCP on/off TURN ON ⇄ TURN OFF</p> <p>Select TURN OFF when the network does not have DHCP enabled.</p> 
<b>IP ADDRESS</b>	<p>Entering the IP ADDRESS : Use the ▲/▼/◀/▶ buttons to enter the IP ADDRESS. This function can only be used when DHCP is set to “TURN OFF”.</p> <p><b>~Note~</b> The IP ADDRESS is the number that identifies this projector on the network. You cannot have two devices with the same IP ADDRESS on the same network.</p> 
<b>SUBNET MASK</b>	<p>Entering the SUBNET MASK : Use the buttons ▲/▼/◀/▶ to enter the same SUBNET MASK used by your PC. This function can only be used when DHCP is set to “TURN OFF”.</p> 

**NETWORK Menu (continued)**

Item	Operation
<b>DEFAULT GATEWAY</b>	<p>Entering the DEFAULT GATEWAY : Use the ▲/▼/◀/▶ buttons to enter the DEFAULT GATEWAY (therouter or PC that forwardstraffic to a destination outside of the subnet of the transmitting device) address.This function can only be used when DHCP is set to "TURN OFF".</p> 
<b>DATE AND TIME</b>	<p>Entering DATE AND TIME : Use the ▲/▼/◀/▶ buttons to enter the Year (last two digits), Month, Date, Hour and Minute.</p> <p><b>~Note~</b> The projector will override this setting and retrieve DATE AND TIME information from the Timeserver when SNTP is enabled. See [Date/ Time Settings] in [User's Manual - Network Functions: Configuring and Controlling the Projector via a Web Browser] for SNTP settings.</p>
<b>TIME DIFFERENCE</b>	<p>Entering the TIME DIFFERENCE : Use the ◀/▶ buttons to enter the TIME DIFFERENCE. Set the same TIME DIFFERENCE as the one set on your PC. If unsure, consult your network administrator. Use the ▲ button to return to the menu after setting the TIME DIFFERENCE.</p> 
<b>e-SHOT</b>	<p>e-SHOT display : Use the ▲/▼ buttons to select an item and the ▶ or ENTER buttons to display the image.</p> <p>Image1 Image2 Image3 Image4</p>  <p>Once an image is displayed, you can use the ▲/▼ buttons to page through the images. Use the ◀ or ESC buttons to return to the menu.</p> <p>Pressing the RESET button on the remote control while an image is being displayed will display the RESET menu.</p> <p>The displayed image can be deleted from the RESET menu using the ENTER button on the remote control or the INPUT button on the projector.</p> <p>If you do not wish to delete the image use the ESC button on the remote control or push the ◀ and INPUT buttons on the projector at the same time.</p> <p><b>~Note~</b></p> <ul style="list-style-type: none"> <li>• Items with no image stored cannot be selected.</li> <li>• Images can be changed using the ▲/▼ buttons while the image data downloads.</li> </ul>  

**NETWORK Menu (continued)**

Item	Operation
<b>INFORMATION</b>	<p>INFORMATION display : Use the ► or ENTER buttons to view network information and confirm settings.</p> <div style="border: 1px solid black; padding: 5px; margin: 10px 0;"> <p>◀ NETWORK - INFORMATION</p> <p>NAME</p> <p>IP ADDRESS 192.168.1.254</p> <p>SUBNETMASK 255.255.255.0</p> <p>DEFAULT_GATEWAY 0.0.0.0</p> <p>MAC ADDRESS 00:00:87:56:AC:7C</p> <p>DATE AND TIME 2000/1/1 8:15</p> <p>TIME DIFFERENCE GMT 00:00</p> </div> <p><b>~Note~</b></p> <ul style="list-style-type: none"> <li>• Only the first 16 characters of the projector name are displayed.</li> <li>• The battery for the built in clock may be dead if the clock loses time even when the DATE AND TIME have been set correctly. Replace the battery by following the instructions on replacing the battery. (🔧47)</li> </ul>

**Network Functions**

Refer to the separate volume on Network Functions.

## Maintenance

## Lamp

**WARNING**

HIGH VOLTAGE

HIGH TEMPERATURE

HIGH PRESSURE

► The projector uses a high-pressure mercury glass lamp. The lamp can break with a loud bang, or burn out, if jolted or scratched, handled while hot, or worn over time. Note that each lamp has a different lifetime, and some may burst or burn out soon after you start using them. In addition, when the bulb bursts, it is possible for shards of glass to fly into the lamp housing, and for gas containing mercury to escape from the projector's vent holes.

► **About disposal of a lamp** • This product contains a mercury lamp; do not put it in a trash. Dispose of it in accordance with environmental laws. For lamp recycling, go to [www.lamprecycle.org](http://www.lamprecycle.org). (in the US) For product disposal, contact your local government agency or [www.eiae.org](http://www.eiae.org) (in the US) or [www.epsc.ca](http://www.epsc.ca) (in Canada). For more information, call your dealer.

Disconnect  
the plug  
from the  
power  
outlet

- If the lamp should break (it will make a loud bang when it does), unplug the power cord from the outlet, and make sure to request a replacement lamp from your local dealer. Note that shards of glass could damage the inside of the projector, or cause injury during handling, so please do not try to clean the projector or replace the lamp yourself.

- If the lamp should break (it will make a loud bang when it does), ventilate the room well, and make sure not to breathe the gas that comes out of the projector vents, or get it in your eyes or mouth.

- Before replacing the lamp, turn the projector off and unplug the power cord, then wait at least 45 minutes for the lamp to cool sufficiently. Handling the lamp while hot can cause burns, as well as damaging the lamp.

- Never unscrew except the appointed (marked by an arrow) screws.
- Do not open the lamp cover while the projector is suspended from the ceiling. This is dangerous, since if the lamp's bulb has broken, the shards will fall out when the cover is opened. In addition, working in high places is dangerous, so ask your local dealer to have the lamp replaced even if the bulb is not broken.

- Do not use the projector with the lamp cover removed. To replace the lamp, make sure that the screws are tightened firmly. Loose screws could result in damage or injury.

- Use only the lamp of the specified type.

- If the lamp breaks soon after the first time it is used, it is possible that there are electrical problems elsewhere besides the lamp. If this happens, contact your local dealer or a service representative.

- Handle with care; jolting or scratching could cause the lamp bulb to burst during use.
- Using the lamp for long periods of time, could cause it dark, not to light up or to burst. When the pictures appear dark, or when the color tone is poor, please replace the lamp as soon as possible. Do not use old (used) lamps; this is a cause of breakage.

**Lamp (continued)**

A lamp has a finite product life. Using the lamp for long periods of time could cause the pictures darker or the color tone poor. Note that each lamp has a different lifetime, and some may burst or burn out soon after you start using them. Preparation of a new lamp and early replacement are recommended.

To prepare a new lamp, contact your dealer and tell the lamp type number.

**Type number = DT00731.**

1. Turn the projector off, and unplug the power cord. Allow the lamp to cool for at least 45 minutes.
2. Prepare a new lamp.
  - If the projector is mounted on the ceiling, or if the lamp has broken, also ask the dealer to replace the lamp.

**In the case of replacement by yourself,**

3. Loosen the lamp cover screw (marked by arrow) and then slide the lamp cover to the side to remove it.
4. Loosen the 2 screws (marked by arrow) of the lamp, and slowly pick up the lamp by the handles.
5. Insert the new lamp, and retighten firmly the two screws that are loosened in the previous process to lock it in place.
6. Slide the lamp cover back in place and firmly fasten the lamp cover a screw.
7. Turn the projector on and reset the lamp time using the LAMP TIME function in the OPTION menu (p.38).

- (1) Press the MENU button to display a menu. Only when the EASY MENU has appeared, please perform the next step (2).
- (2) Point at the "Go To Advance Menu ..." in the menu using ▼/▲ button, then press the ► button.
- (3) Point at the "OPTION" in the left column of the menu using ▼/▲ button, then press the ► button.
- (4) Point at the "LAMP TIME" using ▼/▲ button, then press the ► button. A dialog will appear.
- (5) Press the ▲ button to select "RESET" on the dialog. It performs resetting the lamp time.

**NOTE** • Please reset the lamp time only when you have replaced the lamp, for a suitable indication about the lamp.

## Air filter

**⚠ WARNING** ► Before caring, make sure the power switch is off and the power cable is not plugged in, then allow the projector to cool sufficiently. The care in a high temperature state of the projector could cause an electric shock, a burn and/or malfunction to the projector.

► Use only the air filter of the specified type. Do not use the projector with the air filter and the filter cover removed. It could result in a fire and/or malfunction to the projector.

► The air filter should be cleaned periodically. If the air filter becomes clogged by dust or the like, internal temperatures rise and could cause a fire, a burn and/or malfunction to the projector.

**NOTE** • Please replace the air filter when it is damaged or too soiled, and also when you replace the lamp.

• Please reset the filter time only when you have cleaned or replaced the air filter, for a suitable indication about the air filter. (📖38)

• The projector may display the message such as “CHECK THE AIR FLOW” or turn off the projector, to prevent the internal heat level rising.

If the air filter becomes clogged by dust or the like, internal temperatures rise and could cause a fire, a burn and/or malfunction to the projector. When the indicators or a message prompts you to clean the air filter, clean the air filter as soon as possible.

Please check and clean the air filter periodically, even if there is no message. Please replace the air filter when it is damaged or too soiled. Preparation of a new air filter is recommended.

To prepare a new air filter, contact your dealer and tell the air filter type number.

**Type number = NJ22222**

And also when you replace the lamp, please replace the air filter. An air filter of specified type will come together with a replacement lamp for this projector.

1. Turn the projector off, and unplug the power cord. Allow the lamp to cool for at least 45 minutes.
2. When the projector is suspended from the ceiling, apply the vacuum cleaner to and around the filter cover first, to prevent penetration of dust or the like.
3. While supporting the projector with one hand, use your other hand to pull the filter cover forward in the direction of the arrow. Remove the air filter.

### Air filtre (continued)

4. Apply a vacuum cleaner to the air filter and the filter cover. Please replace the air filter when it is damaged or too soiled.

5. Replace the air filter in its original position. Secure the air filter in place by pressing each of the six ▷ locations. Make sure there is no dust or dirt remaining after the cover is in place. If any dust or dirt remains use a vacuum cleaner to remove it as when placing the filter cover on the air filter.

Reattach the filter cover to the projector by aligning the filter cover with the grooves on the projector. While holding the handle, push down on the filter cover until it locks firmly in place.

6. Turn the projector on and reset the filter time using the FILTER TIME function in the OPTION menu (📖 38).

- (1) Press the MENU button to display a menu. When the EASY MENU has appeared, please skip the next step (2).
- (2) Point at the "OPTION" in the left column of the menu using ▼/▲ button, then press the ► button.
- (3) Point at the "FILTER TIME" using ▼/▲ button, then press the ► button. A dialog will appear.
- (4) Press the ▲ button to select "RESET" on the dialog. It performs resetting the filter time.

## Replacing Internal Clock battery

Consumption of the battery makes the clock not to work correctly. When the clock is wrong or it has stopped, please replace the battery according to the following procedures.

- ⚠ WARNING** ▶ Always handle the batteries with care and use them only as directed. Battery may explode if mistreated. Do not recharge, disassemble or dispose of in fire. And also improper use may result in cracking or leakage, which could result in fire, injury and/or pollution of the surrounding environment.
- Be sure to use only the batteries specified. Do not use batteries of different types at the same time. Do not mix a new battery with used one.
  - Make sure the plus and minus terminals are correctly aligned when loading a battery.
- If the battery is placed in the battery holder upside-down, it may be hard to remove.
- Keep a battery away from children and pets. If swallowed consult a physician immediately for emergency treatment.
  - Do not short circuit or solder a battery.
  - Do not allow a battery in a fire or water. Keep batteries in a dark, cool and dry place.
  - If you observe a leakage of a battery, wipe out the flower and then replace a battery. If the liquid adheres to your body or clothes, rinse well with water immediately.
  - Obey the local laws on disposing the battery.

1. Turn the projector off, and unplug the power cord. Allow the projector to cool sufficiently.
2. After making sure that the projector has cooled adequately, slowly turn over the projector, so that the bottom is facing.
3. Remove the battery cover.  
Turn the battery cover in the direction indicated "OPEN" using such as coins. Then the battery cover will come up. While removing the battery cover, pick its knob.
4. Take the old battery out.  
Press the metal claw of the battery holder. Then the battery will come up. Remove the battery.
5. Put a new battery in.  
**Replace battery with HITACHI MAXELL, Part No.CR2032 only. Use of another battery may present a risk of fire or explosion.**  
Insert a new battery in the battery holder according to its minus terminal ⊖ as indicated in the battery holder, so that the side marked by + is facing. And push the battery into the battery holder fully to fix.
6. Close the battery cover.  
Replace the battery cover in place, then turn it in the direction indicated "CLOSE" using such as coins, to fix.

Battery Cover

OPEN

Knob

Metal claw

"+" marking

CLOSE

If the battery is placed in the battery holder upside-down, follow the procedure below to remove and reload it properly.

1. Remove the battery cover as described in steps 1 through 3 above.
2. Turn the projector over again, so that the top of the projector is facing up.
3. While lifting the side of the projector closest to the lens, press the metal claw of the battery holder. The battery will fall out of the holder, so be careful not to lose it.
4. Turn the projector over once more, so that the bottom faces up, and reload the battery correctly.

**NOTE** • The internal clock's time will be reset when the battery is removed.

Please reconfigure the time via the menu or a web browser after replacing the battery.

(Please refer to [41](#) and User's Manual-Network Functions: Date/Time Settings for more information.)

## Other care

**⚠ WARNING** ► Before caring, make sure the power switch is off and the power cable is not plugged in, and then allow the projector to cool sufficiently. The care in a high temperature state of the projector could cause a burn and/or malfunction to the projector.

► Never try to care for the inside of the projector personally. Doing is so dangerous.

► Avoid wetting the projector or inserting liquids in the projector. It could result in a fire, an electric shock, and/or malfunction to the projector.

- Do not put a container containing water, cleaner or chemicals near the projector.

- Do not use aerosols or sprays.

**⚠ CAUTION** ► Please take right care of the projector according to the following. Incorrect care could cause not only an injury but adverse influence such as discoloration, peeling paint, etc.

► Do not use cleaner or chemicals other than those listed below.

► Do not polish or wipe with hard objects.

### Inside of the projector

In order to ensure the safe use of your projector, please have it cleaned and inspected by your dealer about once every year.

### Caring for the lens

If the lens is flawed, soiled or fogged, it could cause deterioration of display quality. Please take care of the lens, being cautious of handling.

1. Turn the projector off, and unplug the power cord. Allow the projector to cool sufficiently.
2. After making sure that the projector is cool adequately, lightly wipe the lens with a commercially available lens-cleaning wipe. Do not touch the lens directly with your hand.

### Caring for the cabinet and remote control

Incorrect care could have adverse influence such as discoloration, peeling paint, etc.

1. Turn the projector off, and unplug the power cord. Allow the projector to cool sufficiently.

2. After making sure that the projector is cool adequately, lightly wipe with gauze or a soft cloth.

If soiling is severe, dip soft cloth in water or a neutral cleaner diluted in water, and wipe lightly after wringing well. Then, wipe lightly with a soft, dry cloth.

## Troubleshooting

### Related messages

When the unit's power is on, messages such as those shown below may be displayed. When any such message is displayed on the screen, please follow the instructions described below. If the same message is displayed after the remedy, or if a message other than the following appears, please contact your dealer or service company.

Although these messages will be automatically disappeared around several minutes, it will be reappeared every time the power is turned on.

Message	Description
NO INPUT IS DETECTED ON ***	<b>There is no input signal.</b> Please confirm the signal input connection, and the status of the signal source.
SYNC IS OUT OF RANGE ON *** [fH] *****kHz [fV] *****Hz	<b>The horizontal or vertical wavelength of the input signal is out of the response parameter range of this unit.</b> Please confirm the specs for your projector or the signal source specs.
CHECK THE AIR FLOW	<b>The internal temperature is rising.</b> Please turn the power off, and allow the projector to cool down at least 20 minutes. After having confirmed the following items, please turn the power ON again. <ul style="list-style-type: none"> <li>• Is there blockage of the air passage aperture?</li> <li>• Is the air filter dirty?</li> <li>• Does the peripheral temperature exceed 35°C?</li> </ul> If the same indication is displayed after the remedy, please set FAN SPEED of the SERVICE item in the OPTION menu to HIGH.
REMINDER *** HRS PASSED AFTER THE LAST FILTER CHECK. FILTER MAINTENANCE IS ESSENTIAL TO REMOVE WARNING MESSAGE, RESET FILTER TIMER. SEE MANUAL FURTHER INFO.	<b>A note of precaution when cleaning the air filter.</b> Please immediately turn the power off, and clean or change the air filter referring to the "Air Filter" section of this manual. After you have cleaned or changed the air filter, please be sure to reset the filter timer (📖38).

## Regarding the indicator lamps

Lighting and flashing of the POWER indicator, the LAMP indicator, and the TEMP indicator have the meanings as described in the table below. Please follow the instructions within the table. If the same indication is displayed after the remedy, or if an indication other than the following is displayed, please contact your dealer or service company.

POWER indicator	LAMP indicator	TEMP indicator	Description
Lighting In <b>Orange</b>	Turned off	Turned off	<b>The projector is in a standby state.</b> Please refer to the section "Power On/Off".
Blinking In <b>Green</b>	Turned off	Turned off	<b>The projector is warming up.</b> Please wait.
Lighting In <b>Green</b>	Turned off	Turned off	<b>The projector is in an on state.</b> Ordinary operations may be performed.
Blinking In <b>Orange</b>	Turned off	Turned off	<b>The projector is cooling down.</b> Please wait.
Blinking In <b>Red</b>	(discretionary)	(discretionary)	<b>The projector is cooling down. A certain error has been detected.</b> Please wait until the POWER indicator finishes blinking, and then perform the proper measure using the item descriptions below.
Blinking In <b>Red</b> or Lighting In <b>Red</b>	Lighting In <b>Red</b>	Turned off	<b>The lamp does not light, and there is a possibility that interior portion has become heated.</b> Please turn the power off, and allow the projector to cool down at least 20 minutes. After the projector has sufficiently cooled down, please make confirmation of the following items, and then turn the power on again. <ul style="list-style-type: none"> <li>• Is there blockage of the air passage aperture?</li> <li>• Is the air filter dirty?</li> <li>• Does the peripheral temperature exceed 35°C?</li> </ul> If the same indication is displayed after the remedy, please change the lamp referring to the section "Lamp".
Blinking In <b>Red</b> or Lighting In <b>Red</b>	Blinking In <b>Red</b>	Turned off	<b>The lamp cover has not been properly fixed.</b> Please turn the power off, and allow the projector to cool down at least 45 minutes. After the projector has sufficiently cooled down, please make confirmation of the attachment state of the lamp cover. After performing any needed maintenance, turn the power on again. If the same indication is displayed after the remedy, please contact your dealer or service company.

**Regarding the indicator lamps (continued)**

POWER indicator	LAMP indicator	TEMP indicator	Description
<i>Blinking In Red or Lighting In Red</i>	Turned off	<i>Blinking In Red</i>	<p><b>The cooling fan is not operating.</b> Please turn the power off, and allow the projector to cool down at least 20 minutes. After the projector has sufficiently cooled down, please make confirmation that no foreign matter has become caught in the fan, etc., and then turn the power on again. If the same indication is displayed after the remedy, please contact your dealer or service company.</p>
<i>Blinking In Red or Lighting In Red</i>	Turned off	Lighting In Red	<p><b>There is a possibility that the interior portion has become heated.</b> Please turn the power off, and allow the projector to cool down at least 20 minutes. After the projector has sufficiently cooled down, please make confirmation of the following items, and then turn the power on again.</p> <ul style="list-style-type: none"> <li>• Is there blockage of the air passage aperture?</li> <li>• Is the air filter dirty?</li> <li>• Does the peripheral temperature exceed 35°C?</li> </ul> <p>If the same indication is displayed after the remedy, please set FAN SPEED of the SERVICE item in the OPTION menu to HIGH.</p>
Lighting In Green	Simultaneous blinking in Red		<p><b>It is time to clean the air filter.</b> Please immediately turn the power off, and clean or change the air filter referring to the section "Air Filter". After cleaning or changing the air filter, please be sure to reset the filter timer. After the remedy, reset the power to ON.</p>
<i>Blinking in Green for approx. 3 seconds</i>	Turned off	Turned off	<p><b>At least 1 "Power ON" schedule is saved to the projector.</b> (Please refer to the User's Manual-Network Functions: Schedule Settings for more information.)</p>

**NOTE** • When the interior portion has become overheated, for safety purposes, the power source is automatically turned off, and the indicator lamps may also be turned off. In such a case, press the "O" (OFF) side of the power switch, and wait at least 45 minutes. After the projector has sufficiently cooled down, please make confirmation of the attachment state of the lamp and lamp cover, and then turn the power on again.

## Phenomena that may be easy to be mistaken for machine defects

**⚠ WARNING** ► Never use the projector if abnormal operations such as smoke, strange odor, excessive sound, damaged casing or elements or cables, penetration of liquids or foreign matter, etc. should occur. In such cases, immediately turn off the power switch and then disconnect the power plug from the power outlet. After making sure that the smoke or odor has stopped, contact your dealer or service company.

1. Before requesting repair, please check in accordance with the following chart. This operation sometimes resolves your problem.

If the situation cannot be corrected,

2. The projector's microprocessor may need to be reset. Please push the Restart switch by using a cocktail stick or similar and the projector will restart.
3. Some setting may be wrong. Please use the FACTORY RESET function of the SERVICE item in the OPTION menu (U39) to reset all settings to factory default.

Then, if the problem is not removed after the remedy, please contact your dealer or service company.

Phenomenon	Cases not involving a machine defect	Reference page
Power does not come on.	<b>The electrical power cord is not plugged in.</b> Correctly connect the power cord.	14
	<b>The power switch is not set to the on position.</b> Set the power switch to [   ] (On).	17
	<b>The main power source has been interrupted during operation such as by a power outage (blackout), etc.</b> Please turn the power off, and allow the projector to cool down at least 2 minutes, then turn the power on again.	17
	<b>Either there is no lamp and/or lamp cover, or either of these has not been properly fixed.</b> Please turn the power off, and allow the projector to cool down at least 45 minutes. After the projector has sufficiently cooled down, please make confirmation of the attachment state of the lamp and lamp cover, and then turn the power on again.	43, 44
Neither sounds nor pictures are outputted.	<b>The signal cables are not correctly connected.</b> Correctly connect the connection cables.	12, 13
	<b>Signal source does not correctly work.</b> Correctly set up the signal source device by referring to the manual of the source device.	—
	<b>The input changeover settings are mismatched.</b> Select the input signal, and correct the settings.	18
	<b>The RGB IN2 port is assigned to an RGB out while an RGB input signal is inputted to the port.</b> Push the RGB IN OUT switch to switch the function of the port.	12

**Phenomena that may be easy to be mistaken for machine defects (continued)**

Phenomenon	Cases not involving a machine defect	Reference page
Sound does not come out.	<b>The signal cables are not correctly connected.</b> Correctly connect the audio cables.	12,13
	<b>The MUTE function is working.</b> Restore the sound pressing the MUTE or VOLUME button on the remote control.	18
	<b>The volume is adjusted to an extremely low level.</b> Adjust the volume to a higher level using the menu function or the remote control.	18
	<b>The AUDIO setting is not correct.</b> Correctly set the AUDIO item in the SETUP menu.	34
No pictures are displayed.	<b>The lens cap is attached.</b> Remove the lens cover.	17
	<b>The signal cables are not correctly connected.</b> Correctly connect the connection cables.	12, 13
	<b>The brightness is adjusted to an extremely low level.</b> Adjust BRIGHTNESS to a higher level using the menu function or the remote control.	25
	<b>The computer cannot detect the projector as a plug and play monitor.</b> Make sure that the computer can detect a plug and play monitor using another plug and play monitor.	11
Video screen display freezes.	<b>The FREEZE function is working.</b> Press the FREEZE button to restore the screen to normal.	22
Colors have a faded- out appearance, or Color tone is poor.	<b>Color settings are not correctly adjusted.</b> Perform picture adjustments by changing the COLOR TEMP, COLOR, TINT and/or COLOR SPACE settings, using the menu functions.	25, 28, 32
	<b>COLOR SPACE setting is not suitable.</b> Change the COLOR SPACE setting to AUTO, RGB, SMPTE240, REC709 or REC601.	32

## Phenomena that may be easy to be mistaken for machine defects (continued)

Phenomenon	Cases not involving a machine defect	Reference page
Pictures appear dark.	<b>The brightness and/or contrast are adjusted to an extremely low level.</b> Adjust BRIGHTNESS and/or CONTRAST settings to a higher level using the menu function.	25
	<b>The WHISPER function is working.</b> Select NORMAL for the WHISPER item in the SETUP menu.	25
	<b>The lamp is approaching the end of its product lifetime.</b> Replace the lamp.	43, 44
Pictures appear blurry.	<b>Either the focus and/or horizontal phase settings are not properly adjusted.</b> Adjust the focus using the focus ring, and/or H PHASE using the menu function.	30
	<b>The lens is dirty or misty.</b> Clean the lens referring to the section "Caring for the lens".	48

**NOTE** • Although bright spots or dark spots may appear on the screen, this is a unique characteristic of liquid crystal displays, and it does not constitute or imply a machine defect.

## Warranty and after-service

If a problem occurs with the equipment, first refer to the “Troubleshooting” and run through the suggested checks. If this does not resolve the problem, please contact your dealer or service company. They will tell you what warranty condition is applied.

## Specifications

### Specifications

**NOTE** • These specifications are subject to change without notice.

Item		Specification
Product name		Liquid crystal projector
Liquid Crystal panel	Panel size	1.5 cm (0.6 type)
	Drive system	TFT active matrix
	Pixels	CP-S245 : 480,000 pixels (800 horizontal x 600 vertical) CP-X255 : 786,432 pixels (1024 horizontal x 768 vertical)
Lens		Zoom lens F=1.7 ~ 1.9 f=18.9 ~ 22.6 mm
Lamp		180W UHB
Speaker		1W x 1
Power Supply		AC100-120V/3.1A, AC220-240V/1.7A
Power Consumption		290W
Temperature range		5 ~ 35°C (Operating)
Size		306 (W) x 86 (H) x 249 (D) mm (Not including protruding parts) • Please refer to the following figure.
Weight (mass)		3.0 kg
Ports		<b>RGB input:</b> RGB IN1 ..D-sub 15pin mini x1 RGB IN2 /OUT D-sub 15pin mini .....x1 (select RGB IN2 or RGB OUT) <b>Audio input:</b> AUDIO 1 ..... Stereo mini x1 AUDIO 2 ..... RCA x2 <b>Audio output:</b> AUDIO OUT ... Stereo mini x1 <b>Video input:</b> COMPONENT VIDEO (Y, Cb/Pb, Cr/Pr)..... RCA x3 S-Video ..... 1 Video ..... 1 <b>Communication port:</b> CONTROL..... D-sub 9pin x1 USB ..... USB(B) x1 LAN ..... RJ-45 x1
Optional parts	Lamp	DT00731
	Air filter	NJ22222
	Others	• Please consult your dealer.
