2. Verify the settings on your laptop  
Einstellungen am Laptop überprüfen  
Vérifiez les paramètres sur votre portable  
Verifique las configuraciones de su ordenador  
Verificare le impostazioni del computer  
Verifique as configurações no seu laptop

1. Verify the power connections to the projector (check that the power light is on)  
Stromanschluss des Projektors überprüfen (Power-Leuchtanzeige muss leuchten)  
Vérifiez les connexions de l'alimentation au projecteur (vérifiez que l'indicateur d'alimentation est allumé).  
Verifique las conexiones del proyector (compruebe que la luz de energía está encendida)  
Verificare la connessione dell'alimentazione del proiettore (controllare che la spia dell'alimentazione sia accesa).  
Verifique as conexões de alimentação elétrica do projetor (veja se a luz que indica o estado de ligado está acesa).

3. Verify that the black-button is not activated on the remote  
Prüfen, dass "Black" (Verdunkeln) an der Fernbedienung nicht aktiviert ist  
Vérifiez que le bouton noir n'est pas activé sur la télécommande  
Verifique que el botón negro no esté activado para control remoto  
Verificare che il pulsante nero sul telecomando non sia attivato  
Assegure-se de que botão preto não esteja ativado no controle remoto

4. Check if lens cap is mounted  
Sicherstellen, dass die Lin senabdeckung abgenommen ist  
Assurez-vous que la protection de la lentille n'est pas posée  
Compruebe que la tapa de la lente está montada  
Controllare che non sia montato il coperchio della lente  
Verifique se o protetor de lente está colocado

The projected image is not focused  
Das projizierte Bild ist nicht scharf  
L'image projetée n'est pas au point  
La imagen proyectada no está enfocada  
L'immagine proiettata non è a fuoco  
A imagem projetada está fora de foco

2. Adjust the focus ring on the projection lens  
Fokussierung an der Linse verstellen  
Réglez la bague de mise au point sur la lentille de projection  
Ajuste el aro de enfoque de la lente de proyección  
Regolare l'anello di messa a fuoco lente di proiezione  
Ajuste o anel de foco à lente de projeção

1. Ensure that the distance from the projector to the screen is at least at the minimum specified.  
Überprüfen, ob der Abstand zwischen Projektor und Leinwand groß genug ist  
Vérifiez que la distance minimum indiquée entre le projecteur et l'écran est respectée  
Asegúrese de que la distancia desde el proyector a la pantalla  
Assicurarsi che la distanza dal proiettore allo schermo non sia inferiore al minimo di specifica  
Certifique-se de que a distância entre o projetor e a tela esteja pelo menos no mínimo especificado.

4. In Video: Check the sharpness setting in the advanced/picture menu and adjust if necessary.  
Bei Video: Schärfereinstellung im Menü Optionen/Bild prüfen und bei Bedarf ändern.  
Source Vidéo: Vérifiez le réglage de netteté de l'image dans le menu "advanced/picture" et réglez si besoin est.  
En vidéo: compruebe la configuración de la nitidez en el menú avanzado/de imagen y ajústelo si fuera necesario.  
In Video: Controllare la regolazione della nitidezza nel menù Advanced / Picture e regolarla se necessario.  
No video: verifique a configuração da nitidez no menu avançado/imagem e ajuste-a se necessário.

3. Ensure that the projection lens is clean  
Prüfen, ob Linse sauber ist  
Vérifiez que la lentille de projection est propre  
Asegúrese de que la lente de proyección está limpia  
Assicurarsi che la lente di proiezione sia pulita  
Assegure-se de que a lente de projeção
5. Verify that the projector is correctly aligned with the projected screen  
Prüfen, ob der Projektor richtig zur Leinwand ausgerichtet ist  
Vérifiez que le projecteur est correctement aligné avec l'écran  
Verifique que el proyector está correctamente alineado con la pantalla proyectada  
Verificare che il proiettore sia allineato correttamente con lo schermo  
Verifique se o projetor está corretamente alinhado com a tela de projeção

No sound

## FCC STATEMENT

This equipment complies with the limits for a Class A computing device, pursuant to Subpart J of Part 15 of FCC rules. Only peripherals (computer input/output devices, terminals, printers, etc.) certified to comply with the Class A limits may be attached to a computer that complies with Class A limits. When connecting to a peripheral device, a shielded input/output cable is required to ensure compliance with FCC rules. The shielded cable that must be used is supplied with the equipment. Operation with non-certified peripherals or non-shielded cables is likely to result in interference to radio and TV reception.

This equipment generates and uses radio-frequency energy and, if not installed and used in accordance with the instruction manual, may cause interference to radio and television reception. It has been tested and found to comply with the limits for a Class A computing device in accordance with the specifications in Subpart J of Part 15 of the FCC rules, which are designed to provide reasonable protection against such interference when operated in a commercial environment. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the projector with respect to the receiver.
- Plug the equipment to a different outlet so that equipment and receiver are on different branch circuits.
- Fasten cables using mounting screws to ensure adequate EMI control.

You may require the following booklet from the Federal Communications Commission (FCC): "How to identify and resolve radio and TV interference problems", available from the U.S. Government Printing Office, Washington, DC 20402, Stock No. 004-000-00345-4.

## SERVICE INFORMATION

**This product contains no user serviceable parts.  
Attempts to modify mechanics or electronics inside the housing  
will violate any warranties, and may be hazardous.**

If for any reason the product fails to work properly, please contact your dealer for technical support. Prepare a list of the symptoms you observe to make diagnosing easier for your dealer.

Please also include the following:

- Serial number of the unit
- Date code
- Software revision (under Main Menu selection ADVANCED/SERVICE/INFO)
- Connected source information (under main menu selection HELP).
